Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 15 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Some rain around, but many parts dry.

Today:
Showers affecting northern Scotland, whilst some patchy rain is expected across Northern Ireland, Wales, northern and western England. Mostly dry elsewhere with broken cloud and sunny spells. Feeling warm across central and eastern England.

Tonight:
Rain and drizzle clearing from southern areas then most parts dry with broken cloud and clear spells. A few showers for parts of the north and northeast.

Monday:
A few showers in the east at first, then also across north Wales and northwest England. Mostly dry elsewhere with variable cloud and sunny spells. Rain affecting western Scotland later.

Outlook for Tuesday to Thursday:
Cloud and patchy rain sinks southeast across all areas; rain heaviest for hills in the northwest. Sheltered eastern areas seeing good spells of sunshine. Warm here, otherwise temperatures near normal.
